

One Step Clear™

Removes Ink & Emulsion in one step.

Quicker, more efficient, healthier and more economical, it removes traditional plastisols and UV inks. Use with dip tank system. Shelf life 4-6 months.

One Step Clear™ Neutralizer

Need to change out your One Step Clear™ solution? Franmar's Neutralizer changes the solutions pH level to neutral for a safe drain disposal.

Dip Tank System

(Dip Tank/Screen Hold Down/Storage Lid)

Large Dip Tank is 10" W x 27" H x 37" L and cleans as much as 5 to 6 screens at a time. Quick and easy to assemble. For use with One Step Clear™.

Bean-e-doo®

Textile Screenwash. Bean-e-doo® is a safe product that cleans up the tough jobs. Removes tape residue from frame edge. Made naturally from Soybeans.

Greeneway™

Textile Screenwash. One of the most environmentally safe cleaners for plastisol inks. Greeneway™ can be diluted up to 50% with water. For UV and air dry inks, use full strength. Will not remove tape residue.

Strip-e-doo®

Emulsion Remover. Ready-to-use emulsion remover is designed to effectively penetrate and dissolve emulsion and capillary film, without weakening the screen mesh. Strip-e-doo® also contains a degreaser.

Ickee Stickee Unstuck®

Palette Cleaner. Spray it on, wipe it off and re-apply the adhesive immediately. Works quickly and effectively.

d-Grease™

Degreaser. Super-fast drying surface cleaner that is ideal for removing any residue of cleaning solvents left on your screen. Helps to eliminate pin-holing. Screen can be re-taped immediately. Made from distilled corn oil.

d-Haze®

Ghost Remover. d-Haze® easily removes tough ink haze and ghost images. A non-caustic, non-toxic product that will not damage the mesh. Made from Soybeans.

d-Haze® Gel

Ghost Remover/Reclaimer. All the great qualities of d-Haze® with the added benefit of Franmar's exclusive Gel formula. Allows greater control of where you put the d-Haze® Gel. Removes build up of glue on aluminum and wood frames.

Wash Away™

Non-textile Screenwash. Removes all types of screen printing inks without the hazardous chemicals. Wash Away™ is a unique screen cleaner that will not soften emulsions or damage stencils.

Scrub Pads and Handles

Gentle white cleaning pads for general use. Super tough red cleaning pads for use with d-Haze® and d-Haze® Gel. Cleans without doing damage to the emulsion or absorbing solvent. Handles are re-usable.
